Super Resin Diamond Fickerts

Super Resin Diamond Fickerts are made with selected very high quality diamond grains and technically superior resin bonding system.

The products are designed to delivery very high standard of polish on granite and similar stones.

Premium quality raw materials ensure to deliver high performance even under below standard conditions.

Suits for all modern and old machines like Breton, Pedrini Simec, Barasanti, Gaspari and Keda. Products are backed by well qualified experts for any onsite support.

Features	Advantages	Benefits
Only premium diamond grains	Optimum polish and output	Deep polish with crystal clear finish
Superior resin bond system	Perfect bond and timely release	Higher speed and lower overall cost / unit
Universal design	Polish hard, medium and soft materials	No need change, hence more productivity
